

# 3 reasons to upgrade to Dropbox Business

Team members using Dropbox Basic, Plus or Professional to get work done? Get your entire team on board with our Standard or Advanced plan in Dropbox Business. They'll get the powerful and simple solution they love, paired with essential admin tools that keep collaboration—and your company data—secure.

## Effective collaboration powers world-class work

Working together across teams and devices should be as simple as sitting in a conference room together. Shared workflows paired with best-in-class sync keep you connected to your team members, whether they're down the hall or around the world. With Dropbox Business, you get powerful features

such as Smart Sync, which gives you access to every file and folder in your Dropbox right from your desktop—even if you have more in the cloud than could fit on your hard drive—and Team folder, a secure, cloud-based department share that gives you a managed content hub.

More than 50% of employees want to choose the tools they use.\*

## Get better control over company data

Employees want the tools that help them stay productive. But too many solutions can make controlling company data difficult for IT. Dropbox Business gives both end users and

IT what they need: one centrally managed solution that works with all the apps and devices employees already use.

Files typically get spread across 2 devices and 5+ collaboration solutions.\*

- [120 days of file recovery and version history](#)

# Simplify Dropbox account management

Dropbox Business customers average \$316,400 in annual benefits per 100 users.\*\*

Growing a business takes time and resources. Dropbox Business makes scaling easier by giving you administrative control over your entire team's accounts. And with a flexible

solution that helps your team stay productive, you can retire outdated technologies—which means getting money back.
