

Collaboration Flex[®] Plan

Easy. Flexible. Cost-effective.

A smarter way to buy the perfect mix of collaboration services.

Multiple licensing agreements no longer have to complicate the way you consume high-quality collaboration experiences. You can subscribe to what you need today, and add more services as you grow.

And as a bonus, you can add new solutions and services to your customized collaboration portfolio—while reducing costs!

Get to know Cisco Collaboration Flex[®] Plan

A collaboration consumption model for any size business that:

- Enables anytime, anywhere business and greater productivity
- Shifts buying collaboration solutions from an up-front outlay to a subscription model
- Consolidates the services you need under a single contract

**Do your teams need...
Video conferencing?
Team collaboration? Calling?
Contact Center?**

Flex Plan offers an easy way to quickly deliver the perfect mix of services.

**Looking for a way to
reduce upfront
technology costs?**

Flex Plan lets you manage your spend and protect your existing IT investment.

**Concerned about
your ability to meet future
collaboration needs?**

Flex Plan gives you room to prepare for what comes next.

“Subscriptions provide better entry-level pricing...”

Source: Smarter with Gartner: Lessons learned from IT leaders who successfully moved to a SaaS-based business model. May 2018.

Big advantages:

Get employees up and running quickly:
only pay for what they need today

Drive future adoption and growth:
extend and add services at your own pace

Protect your technology investment:
build on your existing deployment

Transition to the cloud your way:
cloud and on-premises deployments included

Budget OpEx predictably:
pay for services via monthly subscription,
and add more when you choose,
without contract change

What's included:

From a few subscribers to 1,000s, there is a user-based Collaboration Flex Plan subscription that fits your needs:

Flex Plan Subscription Models:

Enterprise Agreements (Meetings/Calling)
Maximize value, enable services for everyone

Active User (Meetings)
Pay only for what you use, maximize flexibility

Named User (Meetings/Calling)
Keep initial costs low, get started easily

Concurrent Agent (Contact Center)
Pay only for agents logged in simultaneously,
with the option to address seasonal spikes by
adding incremental agents as needed
