# DID YOU HEAR ABOUT WINDOWS AUTOPILOT?

HP devices for hybrid work create the ultimate way to work with the power of the AMD processor. Do more with more processing power, battery life, and security!

Using Windows Autopilot makes it easy for partners to optimize user features, settings, and apps without ever having to touch the device themselves. Windows Autopilot makes it easy to manage your devices seamlessly, including reconfiguring, recovering, repurposing, and disposing of them at the end of their useful lives.

## Device Deployment Ready for Hybrid Work!

### Out of the Box and Ready to Go!

Configure your device from the cloud in a few easy steps

### Real-Time View

Windows autopilot allows users to keep track of progress.

### Provisioning Without the Hassle

Improve the user experience by personalizing it and simplifying the setup process.

### Cloud Empowerment

Connect Windows Autopilot devices to Azure Active Directory and manage mobile devices from the cloud.
